

Franklin Electric

YOUR PARTNER FOR

WATER SYSTEMS

MINING & CONSTRUCTION

DIESEL- & ELECTRIC-DRIVEN SKID & TRAILER PACKAGES

A comprehensive range of diesel or electric packaged options for fixed and portable installations. Includes Pioneer Prime, Wet Prime and Standard Centrifugal pump ends.

SELF-PRIMING TRASH PUMPS

Designed for reliable solids and clear liquids handling. Continues to reprime automatically after initial priming. Includes Vortex and Wet Prime Series pumps.

WEAR-RESISTANT PUMPS

Manufactured with high-chrome white iron to maximize resistance against abrasives and maintain peak performance in light slurry applications. Includes HWR Series pumps.

NON-CLOG SUBMERSIBLE PUMPS & PACKAGES

Available in single- and three-phase power options to provide a rugged, maintenance-friendly wastewater solids handling transfer solution.

BOOSTER PUMPS & SYSTEMS

Available in high- and low-speed models for superior durability, efficiency, and performance in a wide variety of applications. Includes VR Series pumps.

GASOLINE ENGINE-DRIVEN

Pumps that are ideal for portable dewatering applications where electric power is not available.

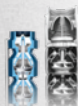

END SUCTION CENTRIFUGAL PUMPS

Available for applications up to 1,100 hp, our end suction centrifugal pumps are offered in close-coupled and frame mount. Includes AG Series, SC Series and Water Truck Pumps.

SPLIT CASE PUMPS

SP & V-SP Series pumps are designed for nearly any application and the harshest conditions. They have the versatility to adjust to your job requirements while providing the long life and ease of maintenance you expect.

SUBMERSIBLE & VERTICAL LINESHAFT TURBINES

Submersible turbine pumps are available in custom configurations to meet demanding application requirements.

SUBMERSIBLE MOTORS

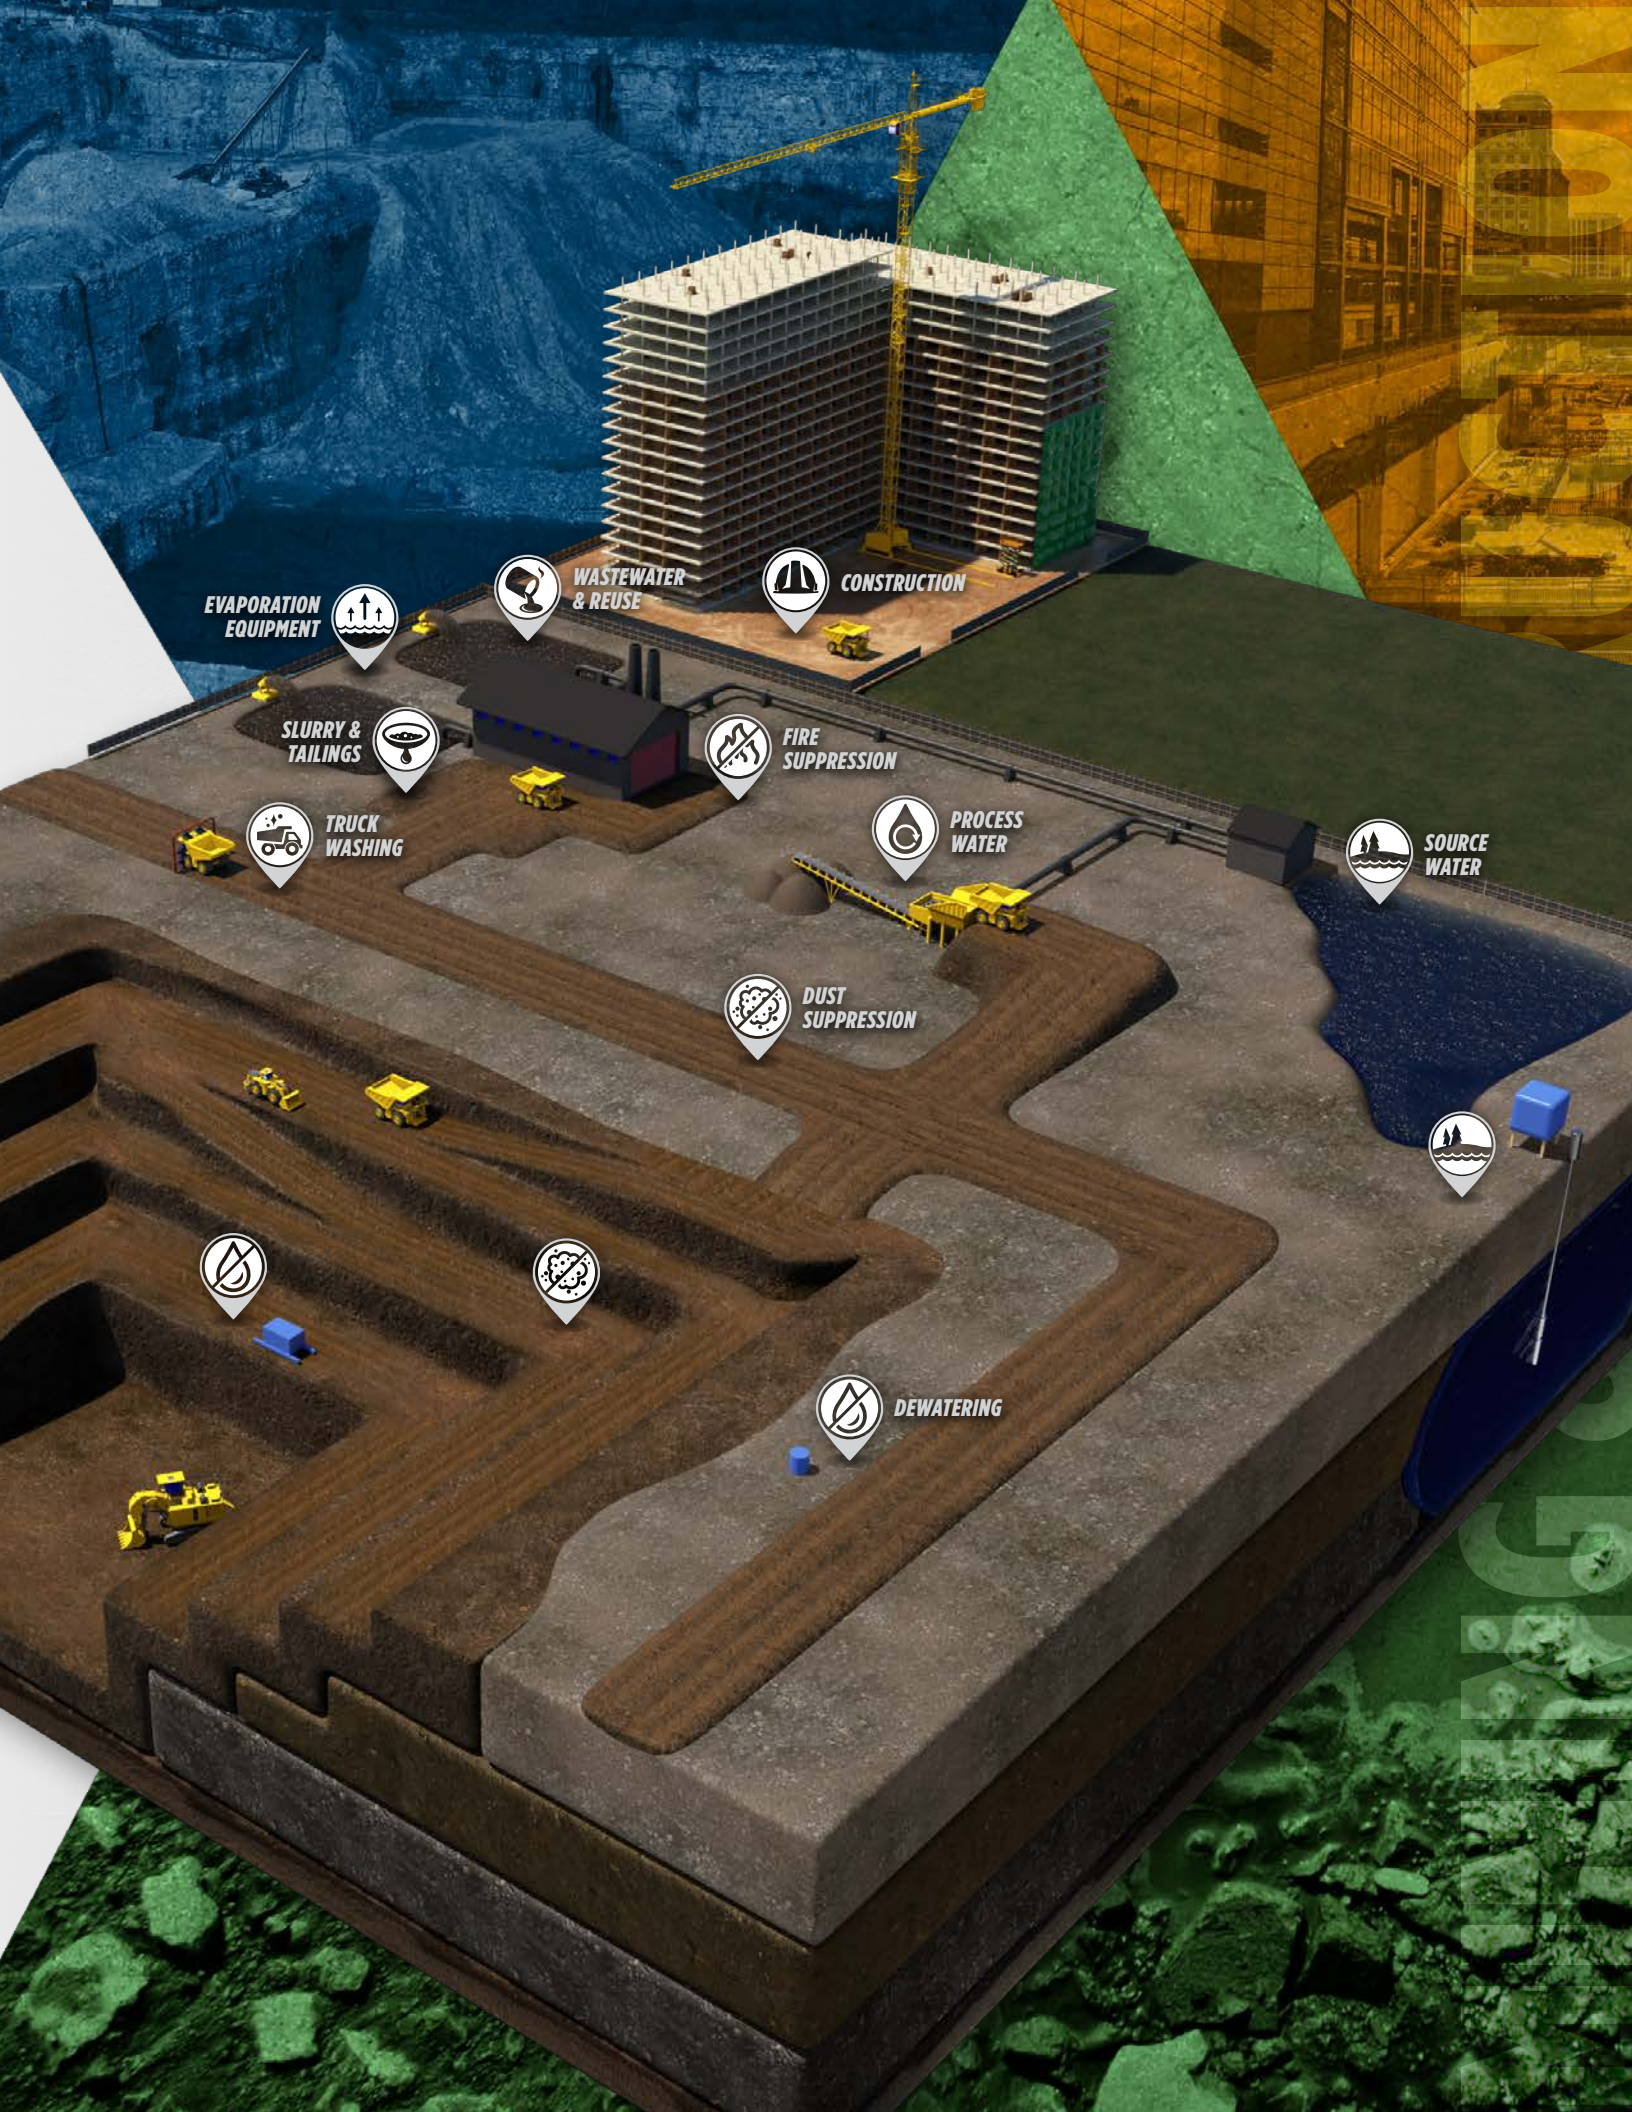

Our submersible motors are tough, built to last and come in a variety of construction options.

DRIVES & PROTECTION

Equip a Franklin drive to protect, monitor, and meet the different needs and demands of each application with the same pump.

DIESEL- & ELECTRIC-DRIVEN SKID & TRAILER PACKAGES

A comprehensive range of diesel or electric packaged options for fixed and portable installations. Includes Pioneer Prime pumps and above ground lift stations.

SELF-PRIMING TRASH PUMPS

Designed for reliable solids and clear liquids handling. Continues to reprime automatically after initial priming. Includes Vortex and Wet Prime Series pumps.

GRINDER PUMPS & PACKAGES

Protects and grinds. Ideal for residential and light commercial sewage waste transfer where high head conditions exist. Includes our low-pressure sewer system (PowerSewer®) and other grinder packages.

NON-CLOG SUBMERSIBLE PUMPS & PACKAGES

Available in single- and three-phase options to provide a rugged, maintenance-friendly wastewater solids handling transfer solution.

BOOSTER PUMPS & SYSTEMS

The Inline 1100, Inline SpecPAK, and VR Series pressure boosting systems are compact and economical ways to meet all of your pressure boosting needs.

END SUCTION CENTRIFUGAL PUMPS

Whether pumping clear liquids or solids, these robust and highly engineered pumps offer close-coupled and frame mounted end suction solutions for your application. Includes AG, SC and XA Series.

TRANSFER PUMPS

The stainless steel DDS Series, cast iron FCE Series, and non-corrosive S, A, and JCM Series fulfill a variety of water transfer needs.

SPLIT CASE PUMPS

SP & V-SP Series pumps are designed for nearly any application and the harshest conditions. They have the versatility to adjust to your job requirements while providing the long life and ease of maintenance you expect.

SUBMERSIBLE & VERTICAL LINESHAFT TURBINES

Submersible turbine pumps are available in custom configurations to meet demanding application requirements.

SUBMERSIBLE MOTORS

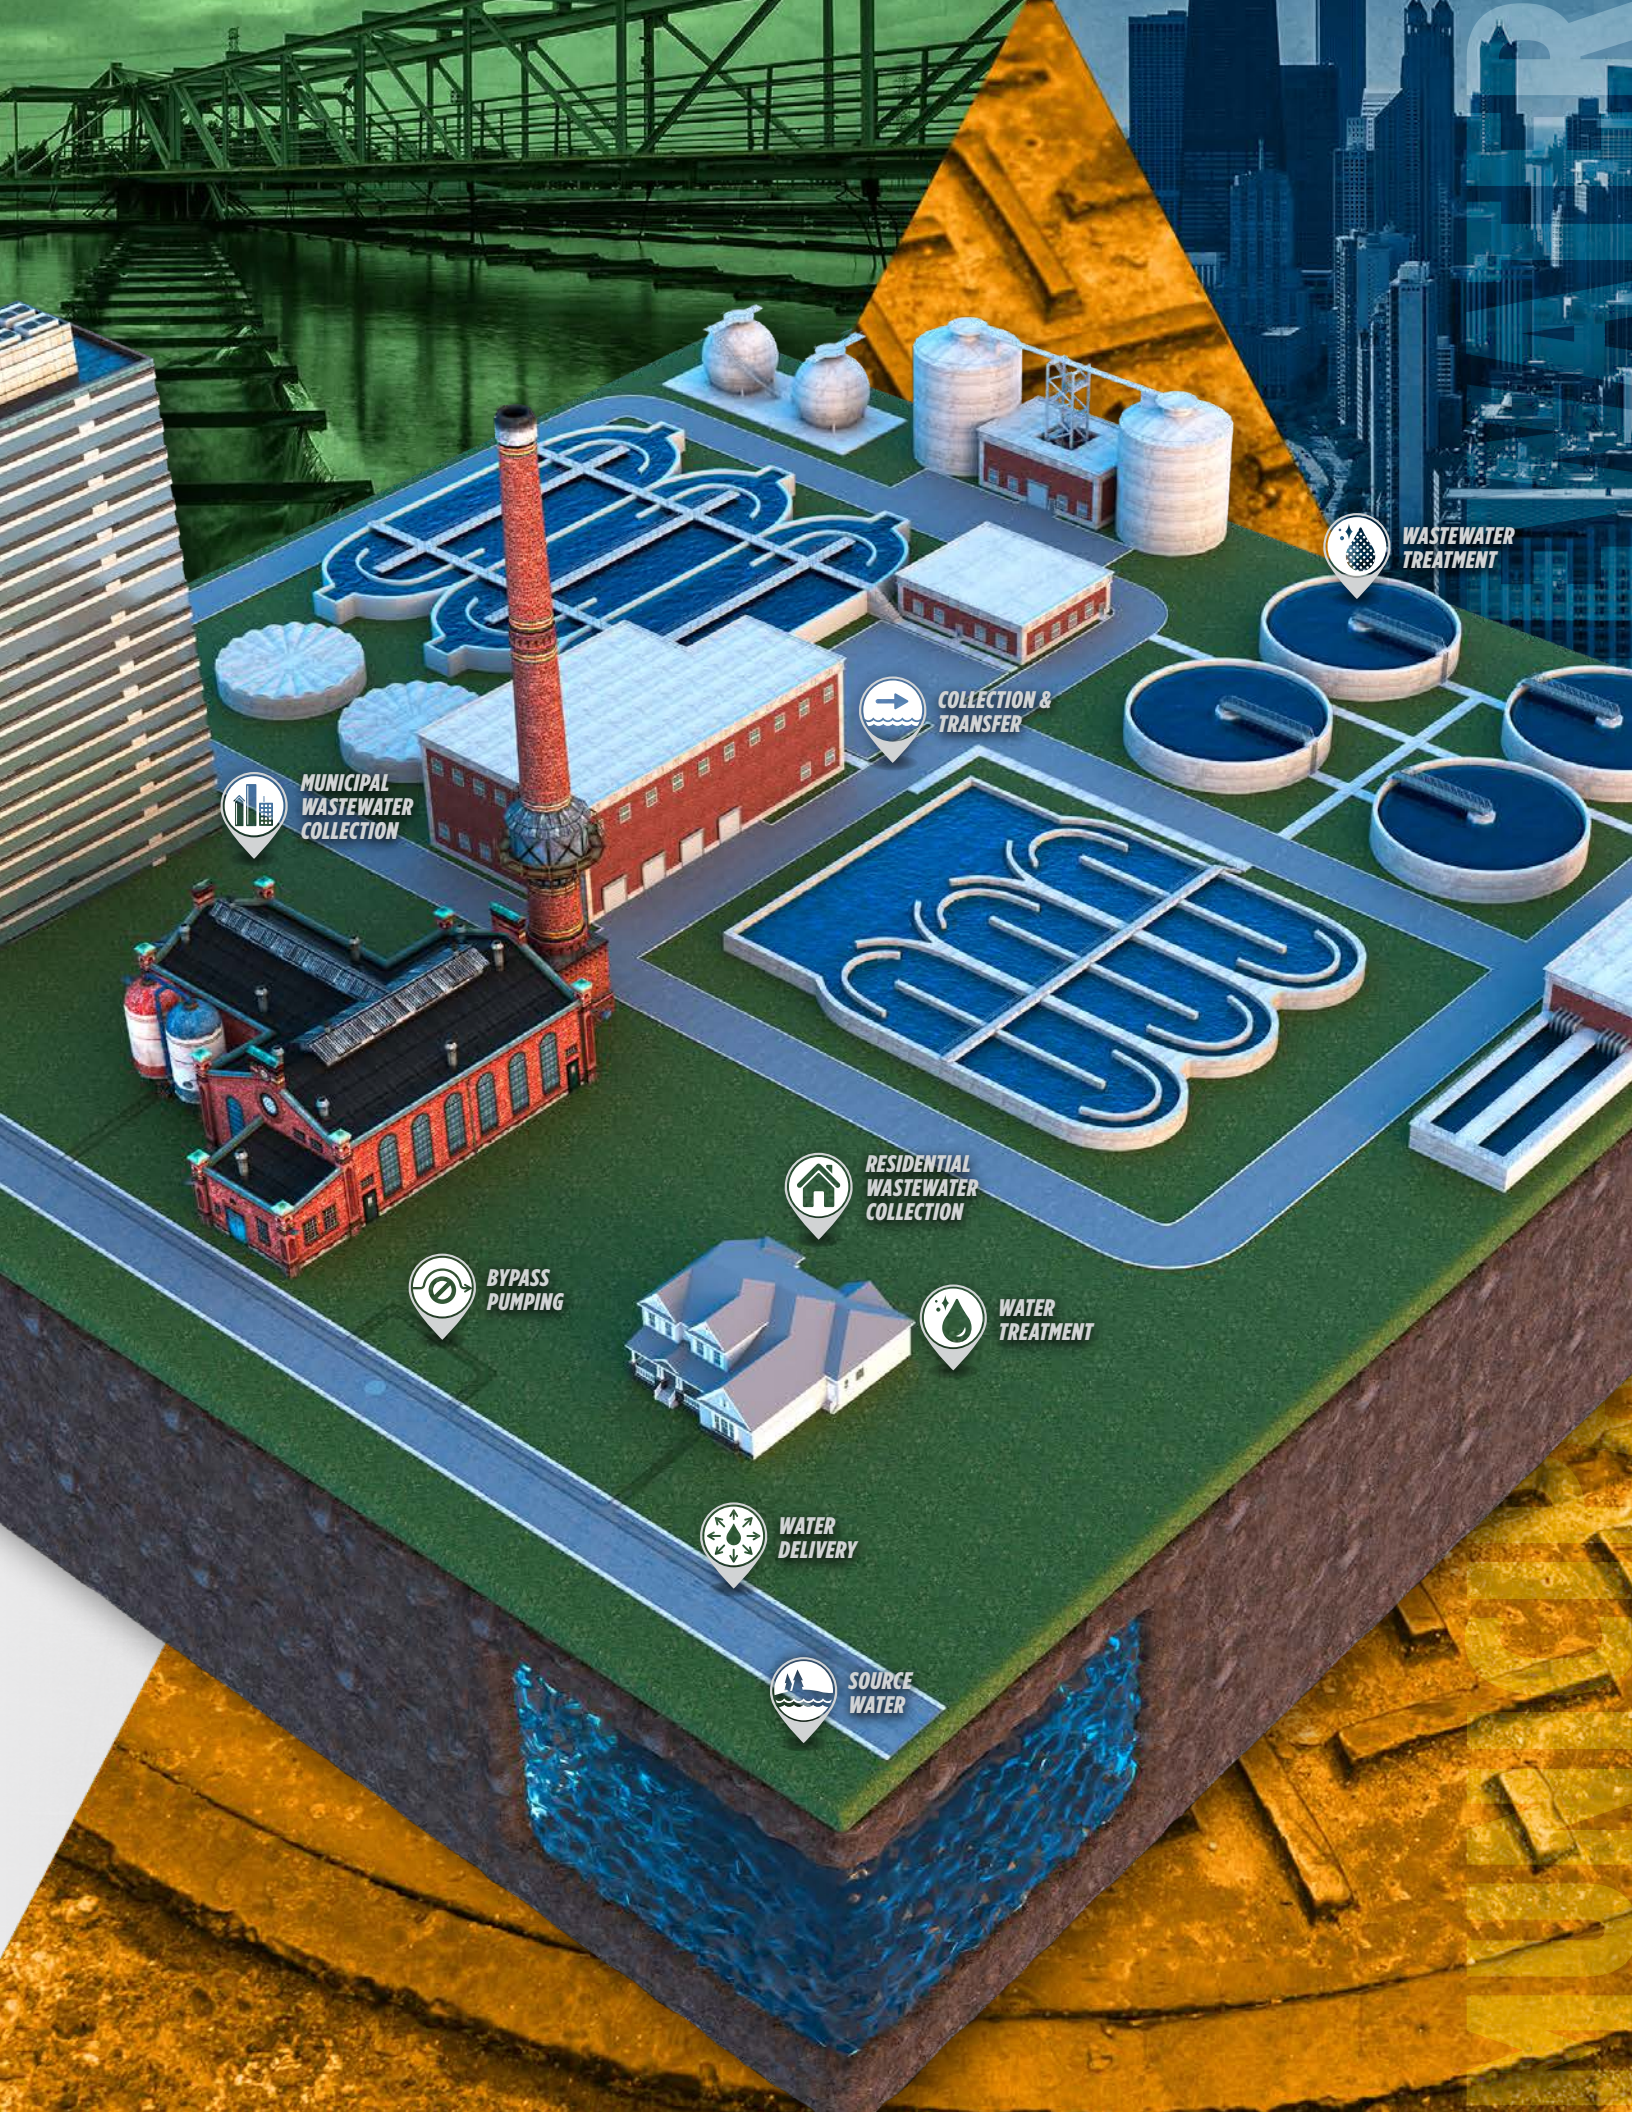

Our submersible motors are tough, built to last and come in a variety of construction options.

DRIVES & PROTECTION

Equip a Franklin drive to protect, monitor, and meet the different needs and demands of each application with the same pump. Includes variable frequency drives and wastewater control panels.
