	<b>DIESEL- &amp; ELECTRIC-DRIVEN SKID &amp; TRAILER PACKAGES</b>	A comprehensive range of diesel or electric packaged options for fixed and portable installations. Includes Pioneer Prime, Wet Prime and Standard Centrifugal pump ends.	
	<b>SELF-PRIMING TRASH PUMPS</b>	Designed for reliable solids and clear liquids handling. Continues to reprime automatically after initial priming. Includes Vortex and Wet Prime Series pumps.	
	<b>WEAR-RESISTANT PUMPS</b>	Manufactured with high-chrome white iron to maximize resistance against abrasives and maintain peak performance in light slurry applications. Includes HWR Series pumps.	
	<b>NON-CLOG SUBMERSIBLE PUMPS &amp; PACKAGES</b>	Available in single- and three-phase power options to provide a rugged, maintenance-friendly wastewater solids handling transfer solution.	
	<b>BOOSTER PUMPS &amp; SYSTEMS</b>	Available in high- and low-speed models for superior durability, efficiency, and performance in a wide variety of applications. Includes VR Series pumps.	
	<b>GASOLINE ENGINE-DRIVEN</b>	Pumps that are ideal for portable dewatering applications where electric power is not available.	
	<b>END SUCTION CENTRIFUGAL PUMPS</b>	Available for applications up to 1,100 hp, our end suction centrifugal pumps are offered in close-coupled and frame mount. Includes AG Series, SC Series and Water Truck Pumps.	
	<b>SPLIT CASE PUMPS</b>	SP & V-SP Series pumps are designed for nearly any application and the harshest conditions. They have the versatility to adjust to your job requirements while providing the long life and ease of maintenance you expect.	
	<b>SUBMERSIBLE &amp; VERTICAL LINESHAFT TURBINES</b>	Submersible turbine pumps are available in custom configurations to meet demanding application requirements.	
	<b>SUBMERSIBLE MOTORS</b>	Our submersible motors are tough, built to last and come in a variety of construction options.	
	<b>DRIVES &amp; PROTECTION</b>	Equip a Franklin drive to protect, monitor, and meet the different needs and demands of each application with the same pump.
