

SERVICE PARTS KITS

PUMP MODEL: 108C24, 128S20, 128S22

The mechanical seal kit and bearing frame kits are offered separately. We recommend ordering both kits for a major service. Both the Mechanical Seal and Bearing Frame kits include all O-rings needed for service.

PARTS DRAWING – 372000122 MECHANICAL SEAL PARTS KITS

372000122 - Mechanical Seal Kit

ORDERING INFORMATION

Most parts kits are in stock and available for shipment within 2 business days. You must have an active Franklin Electric account for order processing. Email orders to PartsSales@pioneerpump.com. For questions, please call Pioneer Pump at (503) 266-4115 or email us at the above email.

NOTE: Part numbers listed reflect updated part numbers as of July 2022. Older documentation may have different part numbers. Please consult factory if differences appear. All parts included in kits are standard material. Please contact Pioneer Pump for any special requests regarding the material of component.

The mechanical seal kit and bearing frame kits are offered separately. We recommend ordering both kits for a major service. Both the Mechanical Seal and Bearing Frame kits include all O-rings needed for service.

A detailed technical cross-section drawing of a mechanical assembly, likely a pump or engine component. The drawing shows a central shaft with various components mounted on it. Labels A through I point to specific parts: A points to the main housing/bore; B points to a seal or gasket; C points to a bolt or screw; D points to a bearing or bushing; E points to a flange or mounting plate; F points to a hose or pipe connection; G points to a nut or washer; H points to a valve or plug; I points to a small component, possibly a pin or clip. The drawing uses hatching to indicate different materials and cross-sections.
